Additional Specialties

More than a specialty distributor

At our core, CuraScript SD provides **integrated delivery solutions** for the safe and efficient distribution of **specialty pharmaceuticals and associated medical supplies**. We've been caring for those who care for more than a quarter of a century by supplying biologics, branded drugs, generics, vaccines, infused medications and ancillary supportive care products to a wide range of medical providers.

That's just the beginning of what CuraScript SD offers you. As a wholly-owned subsidiary of Express Scripts, CuraScript SD also offers your practice the benefits of our Express Scripts sister company, Accredo, a specialty pharmacy. Healthcare practitioners have **seamless access to essential therapies and customized business solutions** which enhance practice efficiency, while at the same time affording pharmaceutical manufacturers a reliable, cost-effective advocate and resource within the distribution space.

Our care knows no boundaries

Headquartered in Lake Mary, Florida, our nationwide distribution platform provides **timely delivery** of orders across the United States, Puerto Rico and Guam. Our strategically located distribution centers in Ohio, Tennessee and Arizona operate extended weekday hours to ensure **next day delivery of all refrigerated products**. This unique service model specializes in providing **customized end-to-end distribution services** so you can focus on the best possible patient care.
