

Rethink What NURSES CAN ACCOMPLISH at Point-of-Care

It's time to improve your pharmacy workflow and nursing efficiencies by moving simple one-to-one drug prep out of the pharmacy to the Point of Care (POC) - including liquid and powder drugs, 13mm and 20mm vials, multiple size and brand IV bags.

With Vial2Bag Advanced® admixture device, you can:

MOVE SIMPLE ONE-TO-ONE DRUG PREP OUT OF THE PHARMACY

Balance your workload and capacity, reducing the materials and labor costs associated with banking on RTUs, pop-togethers, and 503Bs, and give time back to critical initiatives like timely medication delivery, maximizing reimbursement, and drug safety.

SIMPLIFY IV DRUG DELIVERY, COMPETENCY, AND SAFETY

Standardize IV drug delivery and let your nurses focus on mastering one competency instead of trying to get good at four. You'll minimize the potential for medication errors and ensure timely drug administration to your patients.

BUILD A RESILIENT IV DRUG STRATEGY

Choose the IV fluid brand that works for you (and your patients). Preserve your processes and daily practices even during shortages, without worry, extra effort or cost.

VIAL2BAG

ADVANCED®

The Vial2Bag Advanced® admixture device can be an effective tool to assist healthcare providers in immediate use preparation, in accordance with USP <797>.

Intended for U.S. healthcare professionals only.

VIAL2BAG ADVANCED®

Help your nurses do more at the point of care.

Now available in two sizes (20mm and 13mm) for cost-friendly flexibility.

The Vial2Bag Advanced® admixture device technology is a needle-free and easy-to-use solution that enables reconstitution and transfer of a drug between a vial and an IV bag before administration to the patient. It's ideal for immediate use and can optimize pharmacy clean room time, while assisting in standardizing admixture procedures to maximize efficiency of point-of-care nursing.

At-A-Glance

Universal design	Compatible with all manufacturers' IV bags in 50mL, 100mL, or 250mL that contain an ISO standard IV port*
Versatility	Suitable for use with liquid and powder medication with standard 20mm and 13mm closure vials†
Point of care	Optimizes your ADS** utilization, ensuring timely medication delivery to your patients
Immediate Use	Minimizes waste by preparing medication just before administration
Nurse-friendly	Easy 3-step process ("cap-spike-admix") simplifies admixing, standardizing the nursing floor procedure
Precision dosing	Dual-channel system for consistent and accurate dosing‡
Safety	Needle-free design reduces the risk of sharps injuries
Quick identification	Color coded for fast product identification in busy nursing environments

*ISO 8536-4 standard IV spike
**ADS = Automated Dispensing System

Keep the Orange and Blue in View

West liquid transfer devices use the distinctive orange and blue colors—make sure you're benefiting from authentic West quality.

This brochure and the Vial2Bag Advanced® 13mm and 20mm admixture devices are intended for U.S. healthcare professionals only.

†Note: The Vial2Bag Advanced® 13mm and 20mm admixture devices are 510(k) cleared by the United States Food and Drug Administration (FDA). The use of the Vial2Bag Advanced® 13mm and 20mm admixture devices should not be interpreted as modifying, extending, or superseding a drug manufacturer's labeling recommendations for storage and expiration dating, unless otherwise limited by USP <797> compounding standards. Refer to drug manufacturer's labeling and use instructions for recommendations, USP <797>, and applicable institution policy for shelf life and sterility information of reconstituted product and admixture device compatibility. Compatibility of the Vial2Bag Advanced® 13mm and 20mm admixture devices with all drug products has not been confirmed. Do not use the Vial2Bag Advanced® 13mm and 20mm admixture devices with lipids. Failure to follow the instructions provided may result in inadequate medication reconstitution, dilution, and/or transfer, possibly leading to overdose or underdose and/or delay in therapy. Products shown are for INFORMATION purposes only and may not be approved for marketing in specific regions. Please contact your West Pharmaceutical Services, Inc. (West) representative for product availability.
