"Since working with Shipment Trackers, Curant Health has re-evaluated our shipping policies, procedures and partners to add savings to our bottom line."

SCOTT ZEPP

Executive Vice President

"Shipment Trackers' ability to file claims and provide concise reports is hard to beat in the industry. Their team is always just a phone call or an email away, and no request is too big or too small."

Uncover Your Refund Potential

HOW IT WORKS

1 Share Access to Your UPS & FedEx Online Accounts

Setup takes just minutes, your information stays secure and there's no setup, monthly or cancellation fees.

2 We Immediately Start Looking for Refunds

We monitor your packages via UPS and FedEx and work silently in the background to audit invoices and identify service failures, errors and available refunds.

3 Refunds Get Credited Back to You

When we identify a refund, the money is recovered and credited directly to your carrier account. Our fee is a small percentage of savings and only applies after we find and recover money for you.

You shouldn't pay for a shipping service you don't receive. Our pharmacy and healthcare partners count on us to help them hold their shipping partners accountable for delays and errors – and we deliver.

GET POWERFUL REPORTS & ANALYTICS

Each week, you will also receive detailed reports that present information on shipping patterns, carrier performance and more – all **FREE** no matter how much we save you.

"Most recently, they performed a comparison of FedEx shipping costs on prescription medications between two providers, which identified an annual cost savings of over \$100,000, representing nearly 9% of our total shipping costs."
